Highlights in this release

DB / Speed optimization (KERNEL-893)

Just like last week, we introduce some invisible but hopefully noticeable changes to speed up the system. You're welcome!

Additional report settings for Plint Subtitler

The [list of potential problems and errors](#) that Plint Subtitler can automatically flag has been expanded with two additions:

- [Report tool - Forbidden characters](#) (NUTXTWEB-333)
- [Report tool - Mixed case inside ord](#) (NUTXTWEB-336)

Bug fix: "Reply to job": suggested date not visible - (PTF-473)

When a resource [replies "Maybe" to a job](#) and suggested a new deadline, the suggested date was not visible to project managers due an upgrade-related bug. Now fixed.

Full list of improvements and additions

- KERNEL-893, NUTXTWEB-333, NUTXTWEB-336

Full list of fixes

- PTF-473, PTF-477

Revision #5
