

2023-03-21

Highlights in this release

Update the Laravel password policy when creating new user (KERNEL-1688)

Somewhat tougher requirements on passwords.

One Currency - Convert job fees to preferred currency (KERNEL-1483)

Fees calculated with a Resource matrix can now be converted from the Base currency into another currency, based on user preference. Requires currency rates to be set under Tools & Data.

Various Manager role fixes

Several on-page functions and tools that were hitherto blocked from users with login type Manager have now been opened up, based on user feedback and common sense. These functions include:

- Allow manager users to download JSON file from Joblist
- Allow managers to see Job archive for other users
- Allow Manager users access to Tools & Data / Renders
- Allow managers to show user priority in Joblist
- Allow Manager users to assign any users by free text search
- Allow manager users to select Parent project when editing a project

Plint Subtitler: Ability to change time codes using short cuts in MQM mode

Improvements to the MQM editing mode.

Revision #4
