Plint Subtitle: Support for Search & Replace in Annotations

Text in the *Annotations* field can now be found and replaced using **Find/Replace** in the **Edit** menu.

Support for changing *Status* and *Client Company* when Batch editing projects

The Batch edit project function, available to Workbench users and selected Managers, now supports additional fields and the layout has been improved to accommodate all the options.

Batch edit projects

All projects matching the current filter will be affected

This change will affect 22 projects

Tags	<input type="text"/>	Actions	Choose
Extra info	<input type="text"/>	Actions	Choose
