## Highlights in this release

### Bug fix: Batch download broken on projects with MASH setting

If a project had the MASH setting for media processing, the batch download feature in Filezone didn't work. Now fixed.

### Improvements to PM Overview

The fairly new view for showing information about jobs across multiple projects has been updated with numerous improvements and additions, including:

- Colour code adjustments
- Layout improvements
- Filter form
  - E.g. Possible to filter on status and *parent* job status (meaning, you can find which jobs are ready for work)
  - Parent job with status colour code also shown in separate column
- Jobs with automated delivery methods such as Auto create subtitles, Auto delivery, etc, are excluded from the Unassigned column
- Quick link to view project joblist (click on project ID)
- Quick links to Notes and Messages tab of a job always available (highlighted if there are open items)
