

# Online review

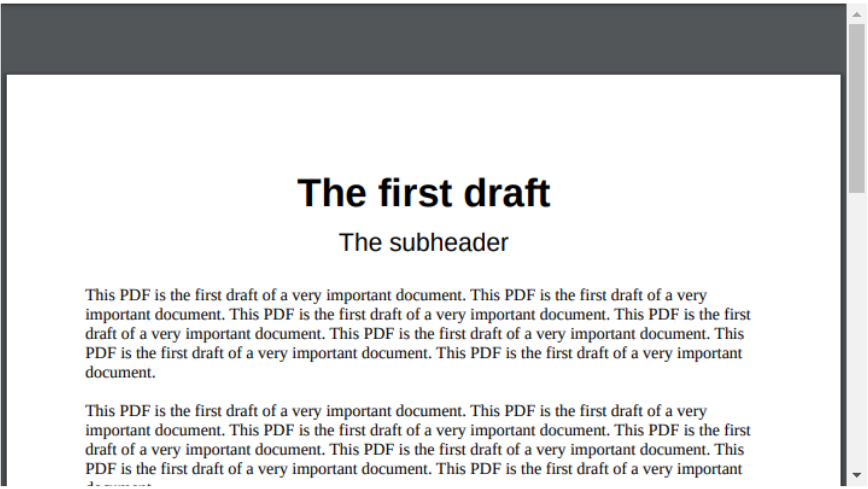

Akin to online editing, Online review enables files in standard formats (doc, video, pdf ...) to be reviewed and refined in a simple workflow:

- User A: Upload file
- User B: Review in browser
  - Approve (done)
  - Not approve
    - Parent job reopened for new upload by User A
- Repeat until perfect

As with online editing, you can add a general comment on status change and a history of versions is maintained.
